November 2023

Dear Parents and Year 11 Students,

Deputy Headteacher - Mathew Downs **Introduction to Year 11 GCSE Booster Program**

As we approach a crucial phase in your child's academic journey, we are excited to introduce our comprehensive in-school and after-school masterclass support program designed to support Year 11 students in preparing for their upcoming GCSE exams. It has already been wonderful to see so many students attending English, Maths and Science sessions.

The GCSE exams are a pivotal moment in your child's education, laying the foundation for future academic pursuits and career opportunities. We understand the significance of these assessments and are committed to providing the necessary resources to ensure your child's success.

Our masterclass support program aims to reinforce key concepts, address challenging topics, and enhance exam readiness. The program will be conducted both during lunchtimes and through optional after-school sessions and it is vital you work with your child to agree their attendance.

It is essential to emphasize the direct link between attendance and academic outcomes. Regular school attendance is not only a legal requirement but also a key factor influencing your child's performance in exams. Consistent attendance ensures that students receive the full benefit of our expertly planned and delivered teaching, providing them with the best chance to succeed in their GCSEs.

We encourage you to support your child's commitment to attending these masterclass sessions, as it directly contributes to their academic progress. The knowledge and skills gained through this program will not only assist them in achieving success in their exams but will also lay a strong foundation for their future endeavours.

Where we feel necessary and have concerns about progress, we will also be reaching out directly to parents and students to plan and agree masterclass session attendance.

We have two new additions this year which include opening the Sixth Form Study Centre on a Monday and a Wednesday after school to allow Year 11 students to stay and study. Staff will be on hand to help with any questions regarding different subjects and to advise on effective revision and retrieval techniques. There will be drinks and snacks available for students.

From Monday 27th November our Art, Design and Technology department are running two 'Refinement Weeks' after school where staff will be available to help students with any questions or revision practice.

If you have any questions or concerns regarding the masterclass program or your child's progress, please contact Mr Holmes, Head of Achievement via office@highcliffeschool.com.

Thank you for your cooperation and partnership in fostering academic excellence.

Yours sincerely,

Mrs Stedmon Assistant Headteacher Mr Holmes Head of Achievement Year 11 Mrs Illgner

Deputy Head of Achievement Year 11
