

YEAR 10/11 RELATIONSHIPS AND SEX EDUCATION LESSONS

At Highcliffe School, we believe that promoting the health and wellbeing of our students is an important part of their overall education. Throughout the academic year and as part of our broader Ethical and Personal Development curriculum (EPD) we will be exploring a range of topics related to Personal, Social, Health Education (PSHE). From February we will introduce Relationships and Sex Education (RSE).

Some parts of RSE are compulsory, such as elements taught within the Science curriculum. Other topics will be taught discretely within the context of the rest of the EPD curriculum. Parents can withdraw their children from these parts of RSE if they wish to do so.

However, we believe that it is important for all young people to have a place to discuss peer pressures, check facts and dispel myths. Even if a child is withdrawn, students will inevitably discuss such issues with each other outside the classroom resulting in hearing about the content second hand. We hope all children will have the opportunity to participate in our carefully planned lessons and assemblies to ensure they receive correct information and advice.
